Question1: What will be the Largest Company at the end of November 2025?

Truth: NVIDIA with about 97% support rate at Nov 4th 6:51pm

Source:

<https://polymarket.com/event/largest-company-end-of-november?tid=1762294889899>

FinGPT:

NVIDIA edges out Microsoft and Apple to become the largest company by market cap at the end of November 2025, driven by AI dominance, profit acceleration, and investor sentiment. (Correct)

Perplexity:

Based on latest available data through November 2025, NVIDIA tops global market cap, followed closely by Microsoft and Apple.(Correct)

Question2: What price will gold close at in 2025?

Truth: With Most people thinks the gold price will be between 3200 to 4000 dollars per ounce at Nov 4th 7:22pm

source:

<https://polymarket.com/event/what-price-will-gold-close-at-in-2025?tid=1762302222780>

<https://polymarket.com/event/what-price-will-gold-close-at-in-2025-4000-5000?tid=1762301902154>

FinGPT:

At the end of 2025, gold is predicted to close around \$2,500 per ounce, driven by rate cuts, central bank demand, and safe-haven investor flows. (Incorrect)

Perplexity:

In summary, gold is most likely to close 2025 at or above \$4,000 per ounce, with the consensus range being \$3,800–\$4,600 per ounce, unless market conditions shift dramatically. (correct)

Question3: What will be the 2nd Largest company at the end of November 2025?

Truth: Apple with 76% support rate followed by Microsoft with 22% support rate at Nov 4 7:10 pm

source:

<https://polymarket.com/event/2nd-largest-company-end-of-november?tid=1762300530754>

FinGPT:

💰 Projected Market Caps (End of November 2025)

NVIDIA (NVDA): ~\$3.4–3.6 trillion

Microsoft (MSFT): ~\$3.2–3.4 trillion

Apple (AAPL): ~\$3.0–3.2 trillion

✅ Prediction Summary:

At the end of November 2025, Microsoft will likely be the second-largest company in the world by market capitalization, narrowly behind NVIDIA, with Apple in third place.(correct)

Perplexity:

The second largest company in the world at the end of November 2025 is projected to be Microsoft, based on consensus from current market capitalization rankings and prediction markets.

Current Market Capitalization Rankings

As of early November 2025, the world's largest companies by market capitalization are:

NVIDIA: approximately \$4.90 trillion

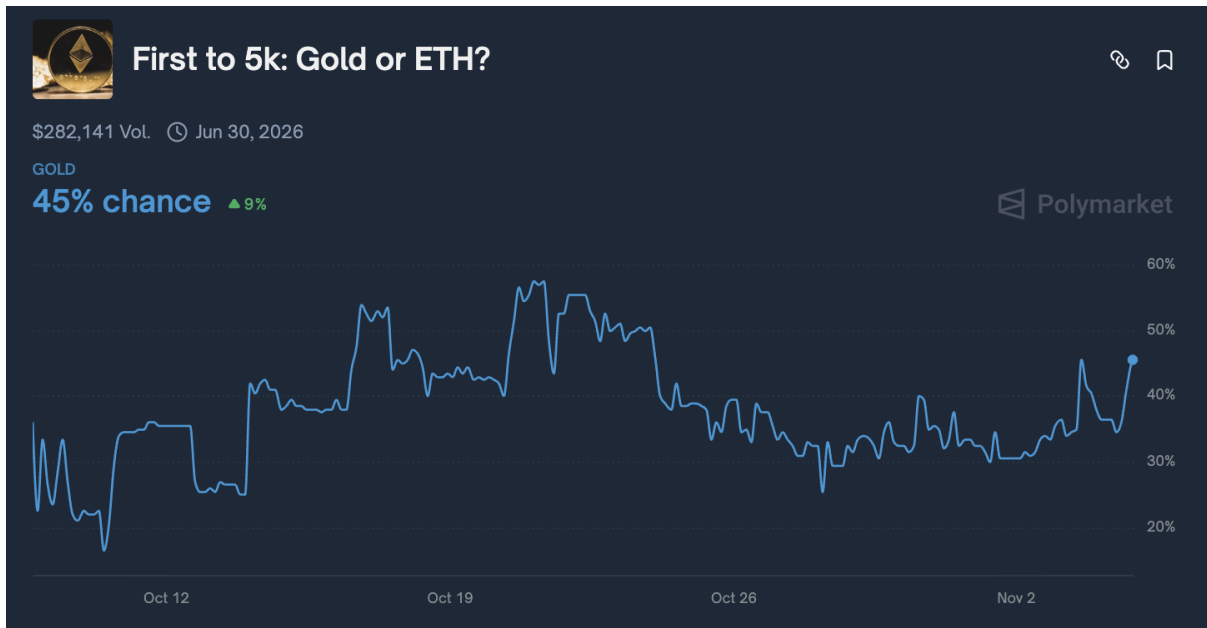

Microsoft: about \$3.82 trillion

Apple: close to \$4.01 trillion

(Correct)

Question4: Who will first go to 5k: Gold or ETH?

Truth: 45% chance of Gold, 55% chance of ETH at Nov 4 2025

source:

<https://polymarket.com/event/first-to-5k-gold-or-eth?tid=1762304003528>

FinGPT:

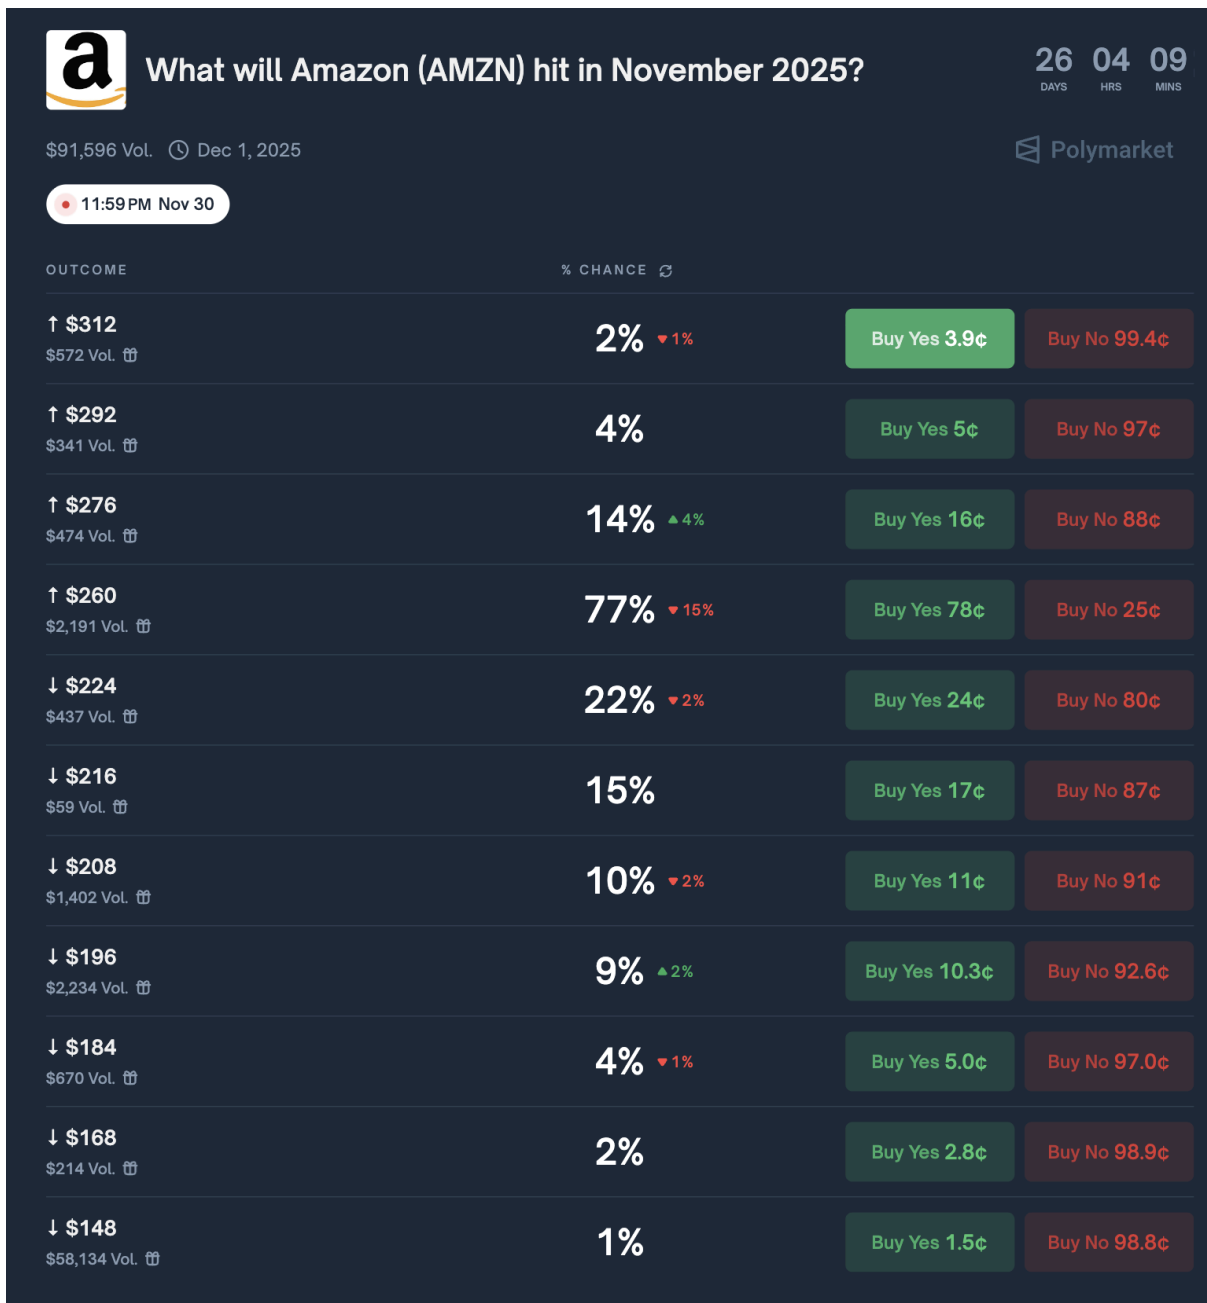

Ethereum (ETH) is far more likely to reach \$5,000 first, thanks to its higher volatility, past proximity to that level, and accelerating institutional adoption. Gold would require an extraordinary macro shock to catch up that fast.(incorrect)

Perplexity:

In summary, Ethereum is highly likely to reach \$5,000 before gold does based on market sentiment, volatility, and prediction markets as of November 2025.(incorrect)

Question5: What will Amazon (AMZN) hit in November 2025?

Truth: most people thinks will be above \$260 at Nov4 7:50 pm 2025

source:

<https://polymarket.com/event/what-price-will-amzn-hit-in-november-2025?tid=1762303727082>

finGPT:

By November 2025, Amazon's stock (AMZN) is most likely to trade in the \$195 – \$210 range per share — near a **\$2.1 trillion** market capitalization

perplexity:

Based on up-to-date forecasts and analyst consensus, Amazon (AMZN) is expected to finish November 2025 at approximately \$249–\$262 per share.
